PHARMA PURE ONE WATER TREATMENT SYSTEMS

Water treatment system is the heart of hemodialysis treatment.

We protect your heart with the systems designed according to European Pharmacopoeia.

- Adjustable alarm limits
- Special design for the capacity increases
- Special RO membranes
- Highest efficiency
- High pressure pumps made from 316 stainless steel

Pretreatment systems must be designed according to the raw water quality. Please contact us for more information!

Standart Equipments and Specifications

- Stainless steel frame
- Conducvity meq̄ter
- Temperature meter
- Reject water flow meters
- Water Inlet, RO Membrane Inlet and Outlet meters
- Low pressure switches

TECHNICAL SPECIFICATIONS

NAME	MODEL	CAPACITY	DIMENSIONS
PHARMA PURE ONE	HD 1 Mobile	1 HD	750 mm x 450 mm x 850 mm
PHARMA PURE ONE	HD 2 Mobile	2 HD	750 mm x 450 mm x 850 mm
PHARMA PURE ONE	HD 5 Mobile	3 HD	640 mm x 750 mm x 1650 mm
PHARMA PURE ONE	HD 10	10 HD	640 mm x 750 mm x 1650 mm
